

## Mobile Software Development Engineer

Cequint, a fast growing 100 person independent subsidiary of a \$500 million company, is the leading provider of carrier-grade mobile industry solutions to tier-1 and tier-2 carriers in the U.S. The company's flagship product has been deployed by multiple carriers on over 35 million devices, and is consistently rated as one of the top-10 applications in the industry.

Cequint is actively developing the next generation of a broad mobile technology that will revolutionize the way people communicate via mobile devices. This confidential project is a large undertaking with executive visibility that will serve tens of millions of mobile users, and promises to fundamentally transform the mobile landscape.

This is an opportunity for the right candidate looking for the intellectual challenge, ownership, and excitement of a start-up, yet the stability, discipline, rigor, and resources of an established company, to have a significant impact by leading the design and implementation of a world class technology. You will be joining an experienced team and a company with seasoned management, and you will be working alongside some of Seattle's best and brightest engineers.

### Qualifications and Experience:

- 5+ years of Mobile Development, ideally Windows Phone technologies (WP7)
- Motivated by delivering great products that tens of millions of people use
- Able to self-manage, take ownership, and thrive in a dynamic, small company atmosphere
- A pure technologist with a strong grasp of OO and computer science fundamentals
- Some previous professional experience required...we care more about what you can do than where you've been (and for how long)
- Baseline ability and familiarity with mobile clients + inherent smarts and ability to research new approaches and technologies
- Ability to carve off a piece of functionality, own the analysis and breakdown, propose the design, code it out, and unit test it
- Flexible use of various software development lifecycles (Agile/Scrum) and experience with deploying mobile products to carriers
- Solid communication skills in the English language
- Natural problem solving and critical thinking ability

Cequint provides competitive salaries, DOE, full benefits spread, 401k, discount health-club membership, and a host of other benefits.
