

## Mobile Integration Tester

Cequint, a fast growing 80 person independent subsidiary of a \$500 million company, is the leading provider of carrier-grade mobile industry solutions to tier-1 and tier-2 carriers in the U.S. The company's flagship product has been deployed by multiple carriers on over 35 million devices, and is consistently rated as one of the top-10 applications in the industry.

Cequint is actively developing the next generation of a broad mobile technology that will revolutionize the way people communicate via mobile devices. This confidential project is a large undertaking with executive visibility that will serve tens of millions of mobile users, and promises to fundamentally transform the mobile landscape.

### Core Responsibilities:

As a Software Tester you will be responsible for all elements of quality assurance in the development and deployment of Cequint products. This will include testing handset functionality as well as handset interfaces with Cequint servers and carrier systems. Your job responsibilities will include: test plan and test case development, black box testing, manual handset tests. You will work closely with the handset integration engineering team as well as handset manufacturers to identify and document defects.

### Qualifications and Experience:

- Bachelor's degree in a technical field or equivalent education/experience
- 4 or more years of software testing experience
- Development of test plans and test cases
- Experience testing wireless or embedded applications
- Testing Tools: bug tracking, test case repository, etc.
- Knowledge of handset operating systems a plus (BREW, J2ME, Android, Blackberry, etc)
- Wireless Networks and Systems
- Software development lifecycle and commercial product deployment
- Solid communication skills in the English language

Cequint provides competitive salaries, DOE, full benefits spread (100% coverage for employee AND family), 401k, discount health-club membership, and a host of other benefits.
